Game Development Using Buildbox

Key Skills

BASIC KNOWLEDGE TO DESIGN A GAME.

Buildbox is the world's first software that allows anyone to create amazing 2D games without any technical skills. It contains a unique user interface, and make games easily that doesn't require any scripting, programming, or software designing experience. Buildbox is a drag and drop game engine, it contains different tools you need to complete your game. From adding multiple levels, effects, and animations to customizing the entire flow of your game, it can all be done in a matter of minutes.
