has successfully completed the online,non-credit Specialization

Web designing using reactjs

Web design is the buzz word nowadays. It is for presenting information on a web page by implementing various animations and graphical representations. Typically, it refers to the Hypertext Markup Language (HTML), Cascading Style Sheets (CSS), JavaScript portion of website production as opposed to the database or server-side programming, and ReactJS for building UI components along with the features like performance, simplicity, and data binding.
