**Specifying Project Details
Using Titleblock**

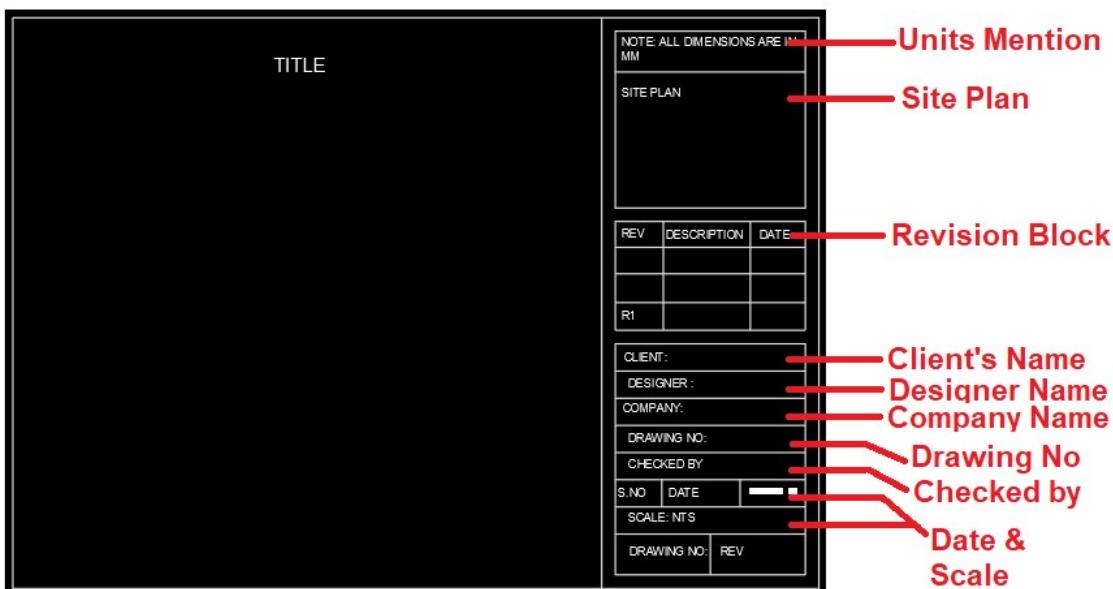

DETAILS OF THE STRUCTURAL ELEMENTS, TITLE BLOCK AND PRINT OPTIONS SPECIFYING PROJECT DETAILS USING TITLE BLOCK

Title Block

Title block is a text box that is used in the drawing to identify the information of a project. Information is located at the right side or below the right side corner or below the sheet.

- A title block is a compactly-arranged area of the drawing sheet that contains information that is more or less common to all of the sheets for a specific project, such as the project name, designer name, client name, site address, issue date, author, checker, sheet number, scale, etc. It may also include a border that extends along the edge of one or more sides of the sheet.
- The title block is a border drawing inserted as an AutoCAD block on another drawing. The title block utility can update attributes on the title block.
