Execution of Building Plan Part-1

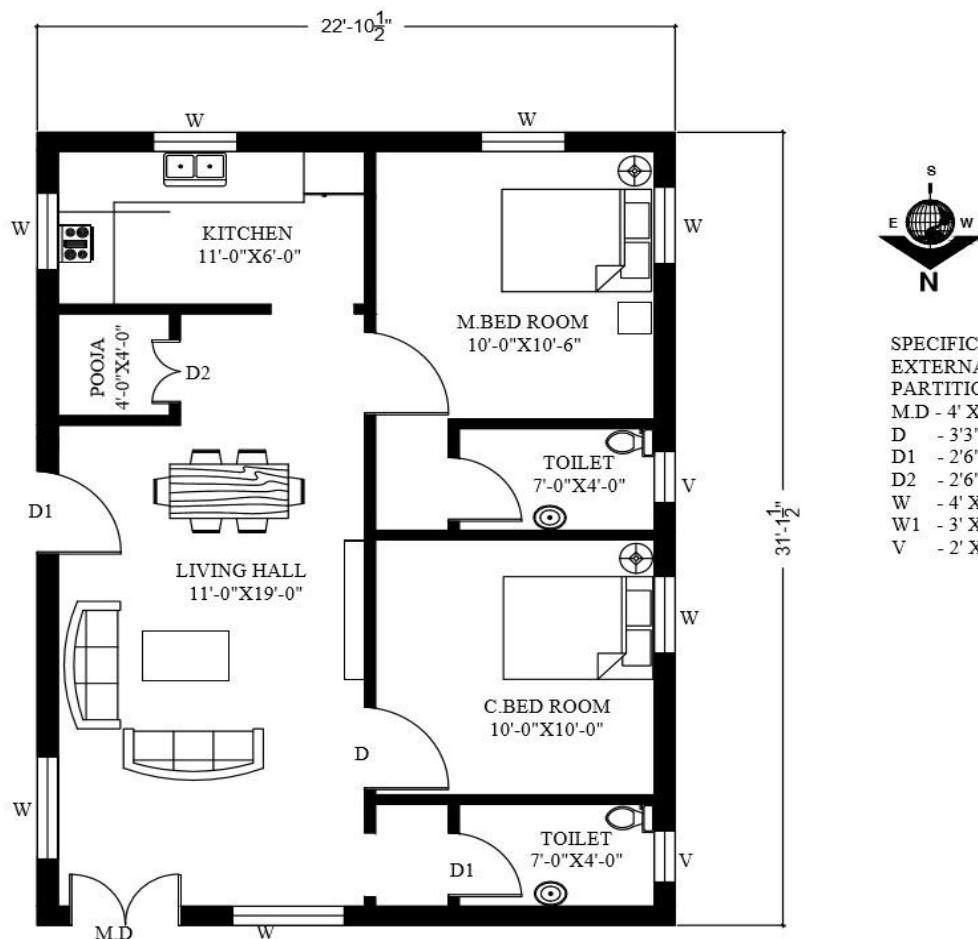

PLANNING OF RESIDENTIAL BUILDING EXECUTION OF BUILDING PLAN PART-1

Creation of external and internal walls

A plan means a top view of any building or object. In architecture and building engineering, a floor plan is a drawing that is showing a top view. And the relationships between rooms, spaces, and other physical features at one level. Dimensions are usually drawn between the room sizes and wall lengths.

In AutoCAD a plan can be drawn by using the tools like line, offset, trim, erase and extend. After drawing the plan dimension, the text tool is used for the representation of area.

- The above plan shows 2BHK, that means 2 bedrooms, 1 hall and kitchen.
